

FHWA Standards Input
Length (L) and Height (H) Parameters

Raised Cosine Function
$$z(x) = (H/2) \times [1 - \cos(2\pi x/L)]$$

Generate elevation profile

Calculate Elevation
Station (m): X-Axis along path
Elevation (m): Y-Axis vertical height

Speed Bump

Speed Hump

Speed Breaker

Import to CarSim DLC Path
Centerline Elevation (m)
